

**REMARKS**

The pending claims upon entry of this Amendment B are claims 1, 4, 6-17, 20, 22-34, and 37-65. As suggested by the Examiner, the limitations of claims 3, 19, and 36 and any intervening claims have been added to independent claims 1, 17, and 34, and claims 2-3, 18-19 and 35-36 have been cancelled. Specifically, claims 1, 17, and 34 have been amended to require the first and second lamellar structured liquids to each have a viscosity of from about 25,000 cps to about 200,000 cps. Support for these amendments can be found in the specification on page 13, paragraph 31. As noted by the Office in the instant Office action, none of the cited references, alone or in combination, disclose a composition in which the first and second compositions each have the specific viscosity as recited in originally filed claims 3, 19, and 36. Applicants further note that claims 51-65<sup>1</sup> were allowed in the instant Office action. As such, Applicant asserts that upon entry of this Amendment B all pending claims should now be in condition for allowance.

---

<sup>1</sup> Applicants respectfully note that claims 34-65 were found allowable in the previous final Office action (final Office action dated August 23, 2006) and in the previous Office action dated March 13, 2006; however, in the instant Office action only claims 51-65 are allowable. Applicants assume that by amending claim 34 to require the viscosity limitations of originally filed claim 35, claims 34-65 are now in condition for allowance.

KCC 4983  
(K-C 19,380)  
PATENT

In view of the above, Applicant respectfully requests favorable reconsideration and allowance of all pending claims. The Commissioner is hereby authorized to charge any fee deficiency in connection with this Amendment B to Deposit Account Number 19-1345 in the name of Senniger Powers.

Respectfully Submitted,

/Christopher M. Goff/
